### **DETAILED ACTION**

A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after allowance or after an Office action under *Ex Parte Quayle*, 25 USPQ 74, 453 O.G. 213 (Comm'r Pat. 1935). Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, prosecution in this application has been reopened pursuant to 37 CFR 1.114. Applicant's submission filed on July 8, 2003 has been entered.

Claim 1 has been amended. Claim 6 has been added. Claims 1 and 6 are pending and under consideration.

The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office Action.

Claims 1 and 6 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. Claims 1 and 6 recite "substantially no metastatic potential". However, the metes and bounds of "substantially no metastatic potential" is not defined in the specification. One of skill in the art could not determine that "substantially no metastatic potential" meant less than a 1% potential, less than a 5% potential or less than a 10% potential.

Amendment of the claims to delete the term "substantially" would overcome this rejection.
